

## HYDROTHERM® 600 MIO

One component water based fast drying silicone paint, with micaceous iron oxide, for protection of steel and stainless steel structures exposed to high temperatures (up to 600°C) or in combination with zinc silicate coatings (up to 450°C). Particularly suitable for protection of stoves, heat exchangers or muffler.

### COLOR CHART

Aluminium – cod. 100799

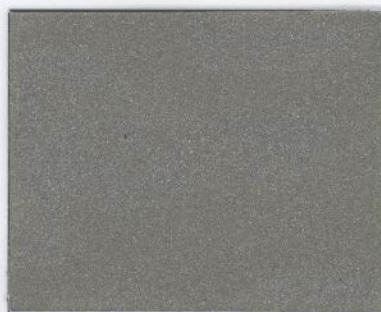

Grey White – cod. 100030

Dark Grey – cod. 100764

Black – cod. 100800

Greenish-Grey – cod. 100778

Green – cod. 100766

Blue – cod. 100801

Brown – cod. 100022
