SECTION 2. Hazards identification

2.1. Classification of the substance or mixture

The product is not classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP). However, since the product contains hazardous substances in concentrations such as to be declared in section no. 3, it requires a safety data sheet with appropriate information, compliant to (EU) Regulation 2020/878. Hazard classification and indication:

2.2. Label elements

	Ti Pi C	ci. S.a.s.			Revision nr. 5
	11.11.0	/i. 0.a.3.			Dated 22/11/2022

2.3. Other hazards					
On the basis of available data, the	product does not conta	in any PBT or vPvB in percent	ige ≥	≥ than 0,1%.	
The product does not contain subs	tances with endocrine of	disrupting properties in concent	ratior	n ≥ 0.1%.	
SECTION 3. Composit	ion/information	on ingredients			
3.2. Mixtures					
Contains:					
Identification	x = Conc. %	Classification (EC) 1272/2	008 ((CLP)	
DIPROPYLENE GLYCOL					
MONOMETHYL ETHER	1,5 ≤ x < 2	Substance with a communit	v wo	orkplace exposure limit.	
EC 252-104-2	.,		,		
CAS 34590-94-8					
The full wording of hazard (H) phra	ses is given in section	16 of the sheet.			
SECTION 4. First aid n	neasures				
4.1. Description of first aid meas	ures				
Not specifically necessary. Observ	ance of good industrial	hygiene is recommended.			
4.2. Most important symptoms a	nd effects, both acute	e and delayed			
		-			

Ti.Pi.Ci. S.a.s. Revision nr. 5 Dated 22/11/2022 Dated 22/11/2022 Printed on 22/11/2022 Page n. 3/13 Replaced revision:4 (Dated: 21/04/2021) Replaced revision:4 (Dated: 21/04/2021)

Specific information on symptoms and effects caused by the product are unknown.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5. Firefighting measures

5.1. Extinguishing media

SUITABLE EXTINGUISHING EQUIPMENT The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray. UNSUITABLE EXTINGUISHING EQUIPMENT None in particular.

5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE Do not breathe combustion products.

5.3. Advice for firefighters

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Use breathing equipment if fumes or powders are released into the air. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

6.3. Methods and material for containment and cleaning up

Confine using earth or inert material. Collect as much material as possible and eliminate the rest using jets of water. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage

Ti.Pi.Ci. S.a.s.

160400- - HYDROTHANE Antigraffiti Matt

Revision nr. 5 Dated 22/11/2022 Printed on 22/11/2022 Page n. 4/13

Replaced revision:4 (Dated: 21/04/2021)

7.1. Precautions for safe handling

Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use.

7.2. Conditions for safe storage, including any incompatibilities

Keep the product in clearly labelled containers. Keep containers away from any incompatible materials, see section 10 for details.

7.3. Specific end use(s)

Information not available

SECTION 8. Exposure controls/personal protection

8.1. Control parameters

8.2. Exposure controls

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.

When choosing personal protective equipment, ask your chemical substance supplier for advice.

thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property.

The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health and safety laws and regulations. The producer is relieved from any liability arising from improper uses.

Provide appointed staff with adequate training on how to use chemical products. CALCULATION METHODS FOR CLASSIFICATION

Chemical and physical hazards: Product classification derives from criteria established by the CLP Regulation, Annex I, Part 2. The data for evaluation of chemical-physical properties are reported in section 9.

Health hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 3, unless determined otherwise in Section 11. Environmental hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 4, unless determined otherwise in Section 12.

Changes to previous review: The following sections were modified: 02 / 08 / 09 / 11 / 12 / 15 / 16.
